

Djebali

Bio

Being into club music since its tender age, Djebali graced the decks of a club for the first time in 2001 inspired by djs like Dan Ghenacia or :Terry:.

Since then he's been playing alongside D'julz, Chloé, Shonky, Dyed Soundorom, Dirt Crew, Cyril K, Jerome Pacman to name but a few and in key clubs like TBar - London, Nouveau Casino (Terry's guest after party is not a crime, with Yan) or Barramundi - Paris...

Recently graduate from the infamous SAE Institute of Paris, he is now a qualified sound engineer whose sound turns into deep & groovy house always trying to keep the sunshine on the dancefloor. Indeed his references are Ricardo Villalobos, Luciano, Samim & Michal, Loco Dice, Bearback.

Now he is involved in production, it is Jay Haze, who will release his first EP in 2008 on TuningSpork label. Tracks with an impressive originality and smoothness. Let's bet Mehdi stands on the right path to success...
